## **A. PREAMBLE**

1. The purpose of a university is to encourage and facilitate the pursuit of knowledge and scholarship. In the Faculty of Health Sciences Occupational Therapy and Physiotherapy Programs (i.e., “OT and PT Programs”), the attainment of this purpose require students to interact with children and other vulnerable populations whom the university must take reasonable measures to protect.
2. Students in the OT and PT Programs work at various clinical sites run by external clinical agencies. In order to protect the public, the OT and PT Programs needs to confirm with these agencies the absence of a criminal conviction or outstanding criminal charges prior to the students participating in a clinical rotation.
3. Students demonstrate the ability to work with vulnerable populations in many ways, including:
  - Acquiring clinical knowledge and competence;
  - Showing respect for others; and
  - Development and demonstration of ethical frameworks.
4. This Policy applies to candidates to whom an offer of admission has been made ("candidates"), as well as to all registered students, and students who have withdrawn from the OT and PT Programs, but who re-apply for the purpose of gaining readmission ("students")
5. This policy represents the OT and PT Programs’ recognition of the importance of confidentiality, safety and well-being in a work environment to ensure that candidates and students, by virtue of their past behaviour, do not pose a threat to their patients/clients.

## **B. RELATED POLICIES**

6. This policy governs both candidates and students. In some instances, a student’s behaviour may involve both academic and non-academic issues, in which case the student may be subject to the procedures of several policies, including the Student Code of Conduct. The Student Appeal Procedures applies to any appeals of decisions related to suspension or expulsion of students. The admission review procedures of the University<sup>1</sup> apply to any request for review of decisions related to revocation or deferral of the offer of admission.

## **C. POLICE CHECKS: AUTHORITY AND RESPONSIBILITY<sup>2</sup>**

**Policy Statement:**

A leave of absence may be granted to students within the MSc(OT) and MSc(PT) programs, by the School of Graduate Studies, on the recommendation of the Program, for health reasons or other extenuating circumstances, **excluding financial reasons**. If a leave of absence is granted, it is only for a maximum of one year.

During the leave of absence, no tuition will be charged, nor will the student be eligible for any scholarship support. The length of time for completion of the degree and for eligibility for such scholarship support will be extended by the duration of the leave upon resumption of studies. Graduate students on a leave of absence have neither full-time nor part-time status.

The understanding is that for the period of the time of the leave, there are no obligations from either party.

A student may request only one leave of absence due to extenuating circumstances.

**Procedures for Requesting a Leave of Absence:**

Please note that students are encouraged to contact the Assistant Dean prior to submitting written documentation or the Petition for Special Consideration, to discuss options and procedures.

1. The student will submit a written request for a leave of absence, using the Petition for Special Consideration Form (available on the School of Graduate Studies website), and other supporting documentation they wish to submit. For the request of a medical leave of absence, a physician's note is also required.

4. The Assistant Dean will complete the Petition for Special Consideration form, which will include his/her recommendation to the Associate Dean, Faculty of Health Sciences (Graduate Studies) regarding the request for the leave of absence. If the recommendation supports the leave of absence, the Assistant Dean will also include within the Petition a recommendation for which Term/Unit of study to which the student is eligible to return.
5. The Assistant Dean will send the student a letter, notifying the student of his/her recommendation to the Associate Dean, Faculty of Health Sciences (Graduate Studies).

**Procedures for Returning from a Leave of Absence:**

1. The request for re-entry must be made at least three months prior to the beginning of the appropriate term or unit, to which the student would be returning.
2. The student is required to write to the Assistant Dean to apply for re-entry into the program, and include evidence of readiness to return to both the academic and clinical components of the program.
  - a. If the leave of absence was granted for medical reasons, a note or letter from the physician most responsible for providing care for the health matter that led to the medical leave of absence is required. This note or letter must be dated within at least two months of the student's written request to return to the program. The student is responsible for informing the physician of the expectations of the clinical and academic components of the program, which the physician will use to inform his/her decision.
  - b. If the leave of absence was granted for extenuating circumstances the letter from the student must demonstrate that the circumstances for which the leave was granted will no longer impact on studies, and/or the student has supports in place to successfully resume studies.

3. Reentry will depend on evidence of readiness to return, as assessed by the Assistant Dean, in consultation with the Program Academic Study Committee if appropriate. The Assistant Dean will make a recommendation to the Associate Dean, Faculty of Health Science (Graduate Studies) in regards to the submission.
4. The Assistant Dean will send the student a letter, notifying the student of his/her recommendation.
